WORK EXPERIENCE

AUG 2015 – PRESENT

BAYDIN (BOOMERANG) › Senior Software Engineer *(March 2018–Present)*
› **Software Engineer** *(Aug 2015–March 2018)*

Most senior developer on the web team for a small but nimble email productivity company, with major software contributions to nearly every current product.

- Built core features for the productivity add-in Boomerang for Outlook, winner of Office App Awards in 2016 & 2017.
- Sole front-end developer for Boomerang Respondable, an AI-powered assistant for writing better emails. Featured by Product Hunt in 2016.
- Integrated automated script bundling via Webpack into existing web projects, reducing bugs, simplifying deployments, and improving developer productivity.
- Led development and established front-end architecture for a Marionette/Django scheduling app, critical to the Boomerang for iOS voice assistant feature.
- With the CTO, architected and established code standards for a confidential Angular project. Helped guide the web team to a working prototype by reviewing implementation details and by contributing general web and software knowledge.

JAN 2017 – PRESENT

A+D CONSULTING › Software Consultant

- Built customized, responsive web solutions for clients such as Salesforce.
- Wrote base React/Express code and Webpack build flow for all new projects at A+D.

JUNE – AUG 2014

ABALTA TECHNOLOGIES › Software Engineering Intern

- Built a web application, designed to run in vehicle head units through WEBLINK® automotive technology, that displayed real-time vehicle information and GPS location.
- Implemented W3C's Vehicle Information Access API to simulate vehicle information.

JUNE – DEC 2013

L3 LINKABIT › Software Engineering Intern

Created a web dashboard using Dojo.js for monitoring the status of SATCOM modems.

PROJECTS & TECHNICAL ROLES

FEB – APRIL 2015

UCSD AS CONCERTS AND EVENTS › Sun God Festival Webmaster

Built AngularJS-powered website for annual music festival that draws 20,000 attendees.

JUNE – DEC 2013

UCSD CSE DEPARTMENT › Advanced Data Structures Tutor
